Editing & copy-editing services.

Press releases.

Web content.

Business & personal correspondence.

Academic & business reports.

Industry & community newsletters.

Logo development & branding.

Media design, layout and copy writing.

With over 25 years of experience in creative communication, I can help you, or your business get the word out to potential employers and clients effectively, persuasively and expressively.

I am a writer and a graphic designer. I contribute regular columns to our local newspaper, a Vancouver-based employment website and my own blogspot. I have edited academic proposals, business correspondence, résumés, cover letters, web content and press releases. Because I have a graphic arts background as well as writing experience, I can assist with both the look of your project and its content.

I work with self-employed, employed and wannabe-employed clients. Effective communication, creative marketing and an exemplary first impression are essential to your success in a highly sophisticated and competitive marketplace.

So, whether you are dropping off a résumé, mailing out a flyer, or launching a brand new product ...

... let's get the word out !

RE: JOB APPLICATION COVER LETTER

You are an amazing editor, thank you I really needed that ... it has made me more confident and has also helped to show me what I've really accomplished!

*Samantha, Nelson BC*

RE: ACADEMIC PAPER

... I should also say it is the first time I am feeling confident with an editor to simply go for "accept all" changes.

The work you did was excellent and clearly helped me to see through the text.

*Anastasia, University of Cyprus, Greece*

RE: RESUME DEVELOPMENT

Looks great! I feel in demand already ... overall, you have produced a product that looks great to me.

*Ron, Vancouver, BC*
